## WORK EXPERIENCE

---

### Sogeti

Irving, TX

Senior Consultant (Front-End Developer)

October 2021 – July 2022

- Aided developers in my team using SCSS, React, JavaScript, Azure DevOps, and Microsoft D365 to build out various ecommerce site components that were deployed in record time to be used as live pieces of the Product pages.
- Took part in a SCRUM team layout, attending refinement, and organizational meetings each week.
- Obtained skills in Next.js, React component libraries such as Chakra, and workflow through Azure DevOps.
- Developed reusable SCSS and TypeScript code that was attached to the code base after completion allowing teammates to utilize and adjust these modular components to their specifications from the respective Figma design.

### App Academy

San Francisco, CA

Student/TA

December 2020 – June 2021

- Rigorous 1000-hour full-stack software development course with < 3% acceptance rate
- Gained skills in Python, SQL, JavaScript, React, Redux, TDD, Networks, Algorithms, Design Patterns, REST, Object Oriented
- Programming, Security and programming best practices
- Assisted programmers in project design including database construction in PostgreSQL, backend API calls in Python, and UX/UI layout of React elements using JavaScript, CSS3, and HTML5

### Dunkin' Donuts

Atco, NJ

Assistant Manager

May 2016 – August 2018

- Navigated the team of employees as assistant manager to increase business and keep customers coming back by providing consistent and reliable customer service as well as efficiency and speed when providing service
- Restructured supply, ordering, and employee habits to decrease waste by 15% and increase overall profit margin by 10%
- Used programs such as QuickBooks and developed custom Excel functions in order to see business patterns and to make quick adjustments to increase profits

### Kumon

Marlton, NJ

Head Tutor

June 2011 – May 2016

- As the head tutor, I assisted students (of all ages) in the acquisition of basic and advanced academic skills in the fields of mathematics and writing.
- Instructed students in critical reading skills up to 12th-grade level and math techniques up to calculus level, leading to improvements in students' grades whereas no student resulted lower than an "A" in their respective class.

## EDUCATION
